29	screw, wall plug	1
30	Grub screw	1

Installation

Prepare pipes in wall to connect to shower, with cold on the right.

Ensure these pipes are flushed before connecting the mixer.

A 1/2" male fitting will be required (not supplied) to connect the outlet pipe to the mixer.

Two 3/4" male fittings will be required (not supplied) to connect the supply pipes to the mixer.
